

Health Center Menu of Services

Immunization & Wellness Service
“The Nurse Comes to
Your Organization”

Our immunization program offers a service for individuals and companies to determine which immunizations they need and to obtain them in a very convenient setting. Whether it is for work, school, travel or everyday living, we can provide you with the immunizations you need to stay healthy!

The best part is that our nurses will come to you!
For a group of ten or more, a nurse will visit your office, church, school, or other facility to administer the vaccinations or services you choose. Please call or visit our website for details of our service dedicated to keeping our community healthy!

Health Fairs

Our well-trained professionals are available to companies or groups with services customized to meet their needs. Services may include immunizations, blood pressure checks, percentage of body fat analysis, various blood tests, and free educational materials about immunizations and other health issues, such as diabetes, cancer and heart disease.
